

SYEDA SANJIDA MALIK

Software Engineering Intern | Full-Stack Web Developer | CSE Undergraduate

syeda.malik10@northsouth.edu | Dhaka, Bangladesh | Bangla (Native), English (Fluent)

PROFILE

Computer Science & Engineering undergraduate at North South University with hands-on experience in web development, database-driven applications, cybersecurity and technical problem-solving. Strong foundation in JavaScript, PHP, Python, Java, C/C++, React.js, Node.js, SQL and MongoDB, with practical exposure to REST APIs, Git/GitHub, Docker, Kubernetes and cloud concepts. Completed NSU Cybersecurity Center Course 1 and Course 2. Self-directed and detail-oriented, with a strong ownership mindset and the discipline to research, troubleshoot, document and carry assigned work through to completion.

EDUCATION

B.Sc. in Computer Science & Engineering (CSE) — North South University (NSU), Dhaka | Currently pursuing undergraduate degree

Cambridge International A Levels — Bangladesh International School & College | Computer Science A*, Mathematics A, Physics A, Biology B

Cambridge International O Levels — Bangladesh International School & College | A* in all subjects except Bangla

WHY I'M A STRONG FIT FOR THE SOFTWARE ENGINEERING INTERN ROLE

- Ownership mindset — comfortable taking responsibility for assigned modules and following work through from implementation to debugging and documentation.
- Independent problem-solving — able to research unfamiliar tools, troubleshoot errors and seek focused guidance when genuinely blocked.
- Hands-on development — practical experience across frontend, backend, databases, REST APIs and collaborative software projects.
- DevOps exposure — completed IEEE NSU workshops on Docker & Kubernetes Essentials and AWS Cloud Practitioner fundamentals.
- Cybersecurity foundation — completed both NSU Cybersecurity Center training courses and practical security labs.
- Communication — fluent in Bangla and English, with experience explaining technical concepts clearly and working independently.

RELEVANT ACADEMIC PROJECTS

PNSM Workforce Management System — Group Project, CSE 482 | Backend & Database Scope

- Contributing to a workforce attendance and management platform using backend APIs, database services and web administration workflows.
- Working with MongoDB Atlas, geospatial data and 2dsphere indexing for location-aware attendance validation.
- Working with authentication, 2FA, face-verification data, geofencing, attendance records and security-focused workflows.
- Exposure to Docker-based development, deployment environments, Render/Koyeb hosting and Cloudflare R2 asset storage.
- Using Git-based collaboration, debugging, documentation and integration practices.

Unpaid Labour Management System — Database Management System Project | PHP & MySQL

- Originated and developed a database-driven platform for managing household-worker employment records and relationships.
- Built frontend and server-side functionality using HTML, CSS, JavaScript, PHP and MySQL.
- Worked with relational schema design, SQL queries, CRUD operations, foreign keys and data-integrity constraints.

EXPERIENCE

Home Tutor — Self-employed, Dhaka | 2020 – Present

- Reviewed and evaluated student work consistently over several years, developing a sharp eye for errors, inconsistencies and quality against a clear standard.
- Explained technical and conceptual material in clear, step-by-step language, strengthening instruction-following and guideline-interpretation skills.
- Managed work independently, communicated progress with students/guardians and maintained consistent standards across repeated tasks.

TECHNICAL SKILLS

Programming: C, C++, Java (Object-Oriented), JavaScript, PHP, Python

Web Technologies: HTML, CSS, Bootstrap, Tailwind CSS, React.js, Node.js, Express.js

Databases: MySQL, MongoDB, SQL, schema design, queries, CRUD

Development & APIs: REST APIs, Git, GitHub, debugging, testing, documentation

Cloud / DevOps: Docker, Kubernetes fundamentals, AWS Cloud fundamentals, XAMPP

Cybersecurity: Vulnerability assessment, web security, SQL injection testing, enumeration, log analysis

Core Strengths: Attention to detail, structured/logical reasoning, independent work, ownership, communication

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- NSU Cybersecurity Center — Course 1: Cybersecurity Training | Completed, 2026
- NSU Cybersecurity Center — Course 2: CyberEdge: Hack, Audit & Defend | Completed, 2026
- IEEE NSU Student Branch, SKILL Development Venture 5.0 — PORTFOLIOX: A Full Stack Web Development Workshop | Certificate of Participation
- IEEE NSU Student Branch, SKILL Development Venture 5.0 — AWS Cloud Practitioner Workshop | Certificate of Participation
- IEEE NSU Student Branch, SKILL Development Venture 5.0 — Workshop on Docker & Kubernetes Essentials | Certificate of Participation

ACHIEVEMENTS

- Champion's Award — Extemporaneous Speech, 3BNCC Battalion Camping 2017, Dhaka.
- Runners-Up Award — Female Volleyball, Dhaka Educational Board Urban Zone Inter-College 2017-2018.
